➤ Skype Bluetooth Phone BT3

Introduction

Making Skype™ calls are very pleasant experiences for most of the PC users. You are free to make calls anytime, anywhere, to anybody on the planet, either familiar, or unfamiliar with. It is not only a money-saver, but also a very powerful communication tool. You may talk, send instant message, send files, and eventually make video conversation.

Such wonderful experience is somewhat confined to a PC, however, since Skype is required to run on PC. But that constraint is about to disappear. With this Bluetooth SkyPhone, you will be able to move freely from your seat to other rooms at home, or to a meeting rooms at work.

The Bluetooth 1.1 compliant Skype Phone provides the free of charge Skype PC to PC calls, very inexpensive SkypeOut calls, and receive SkypeIn calls. It employs Voice Over IP technology, while maintaining the plug-and-play simplicity in installation. Users do not have to concern about the compatibility issues as installing other VoIP technology.

The Skype Bluetooth Phone contains a PC dongle unit, and a handset unit. And a Y-USB cable for PC connection and power charge.

Features

- Bluetooth 1.1 compliant, enhanced with AFH to coexist with Wi-Fi
- Phone-to-Phone VoIP calls, in addition to PC-to-PC, PC-to-Phone Calls
- Maintain concurrent phone list with PC
- Serving range up to 25 meters from PC
- Multi-lines LCD display for call operation
- Up to 6 continuous talking hours before recharge
- Extra earphone jack for ear-bud headset

➤ Skype Bluetooth Phone BT10

USB Phone (BT10) is a wireless Skype™ phone, which allows you to make and receive Skype calls from at a handset without being confined to a PC. The Skype services provided on the PC are now moved to the LCD Display-equipped handset. The regular PC-to-PC Skype calls, SkypeOut™ calls, Skype-In™ calls, and features including Contact list browsing, miss-call lists, call histories, Hold, Profile viewing, are provided. Beside, the echo-eliminating technology improves the voice quality. BT10 also can be used as the handset when talking through MSN Messenger™ and Yahoo Messenger™. Once correctly installed, you are able to use this phone anywhere in a home or office like a mobile phone, as long as it is within the proximity of 30 meters from the PC, which runs Skype.

Feature

- Good immunity to other 2.4GHz RF interference
- Bluetooth 1.1 compliant with Adaptive Frequency Hopping
- 25-30 meters from PC
- Friendly call handling and operation by LCD display and function keys
- Stylish mobile handset design, comfortable to use and carry
- Concurrent Contact list, Missing call list, and Call history as in PC
- Support Skype Versions 1.03, 1.04, 2.0 and 2.5 Beta
- Earphone support
- Implement Echo-elimination technology for quality sound
- Built-in Li-Ion battery for up to 5 hours talking time and 2 days standby time.
- 5 types of hold music and 10 types of ringers

➤ Skype BlueTooth Phone BT11

S.G. INTERNATIONAL GROUP H.K. LTD.

Absolute Simplicity

BT11 Skype BlueTooth Phone

is an unique wireless skype phone combines all the powerful function.

Real time fresh the namelist show up on the colorful screen. That will lead you away from the computer around 30meters. Including monopolistic IM transfer tech will let you receive Skype message far away from the computer and answer the message immediately. There will be no more baffle for the usage. Cause the user interface is all the same with the Skype and the machinery operation is similar to the cell phone.
